

IEEE at Virginia Tech

SPONSORSHIP PACKAGE

OVERVIEW

As Virginia Tech's IEEE student chapter, we believe in shaping engineers to solve humanity's future problems. We help develop stronger engineers by giving them an opportunity to gain hands-on experience through our many workshops, further their leadership skills through our group activities, and communicate effectively through the many collaborations within our tight-knit network of electrical and computer engineers.

With over 200 members, Virginia Tech's IEEE chapter has made a name for itself as one of the top IEEE chapters in the nation. We have high ambitions and hope to further develop our organization to better fit the needs of our member population. In order to accomplish these needs, we require financial support, and without generous donations we would be unable to do so.

A wide-angle photograph of a football stadium at night. The stands are packed with spectators, and the field is visible in the center. In the dark sky above the field, several fireworks are exploding, creating bright, multi-pointed shapes. The stadium's lights are on, illuminating the scene.

EXPENDITURES

ACTIVITIES

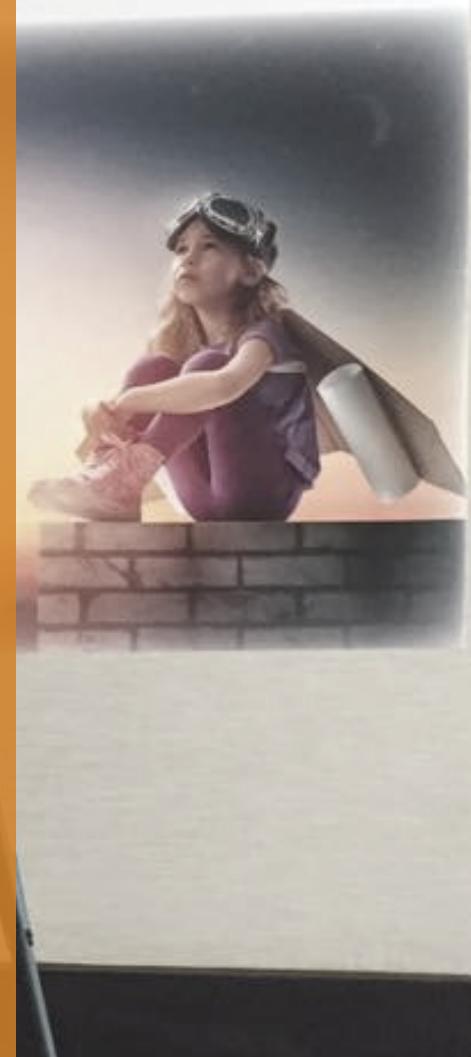

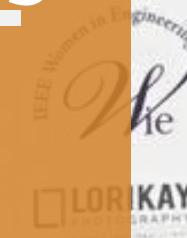

We organize numerous activities over the course of the semester and hold multiple events per week. These activities include fun friday, community outreach events, picnics, bowling nights, networking dinners, corporate recruiting events, among many more.

Women In Engineering

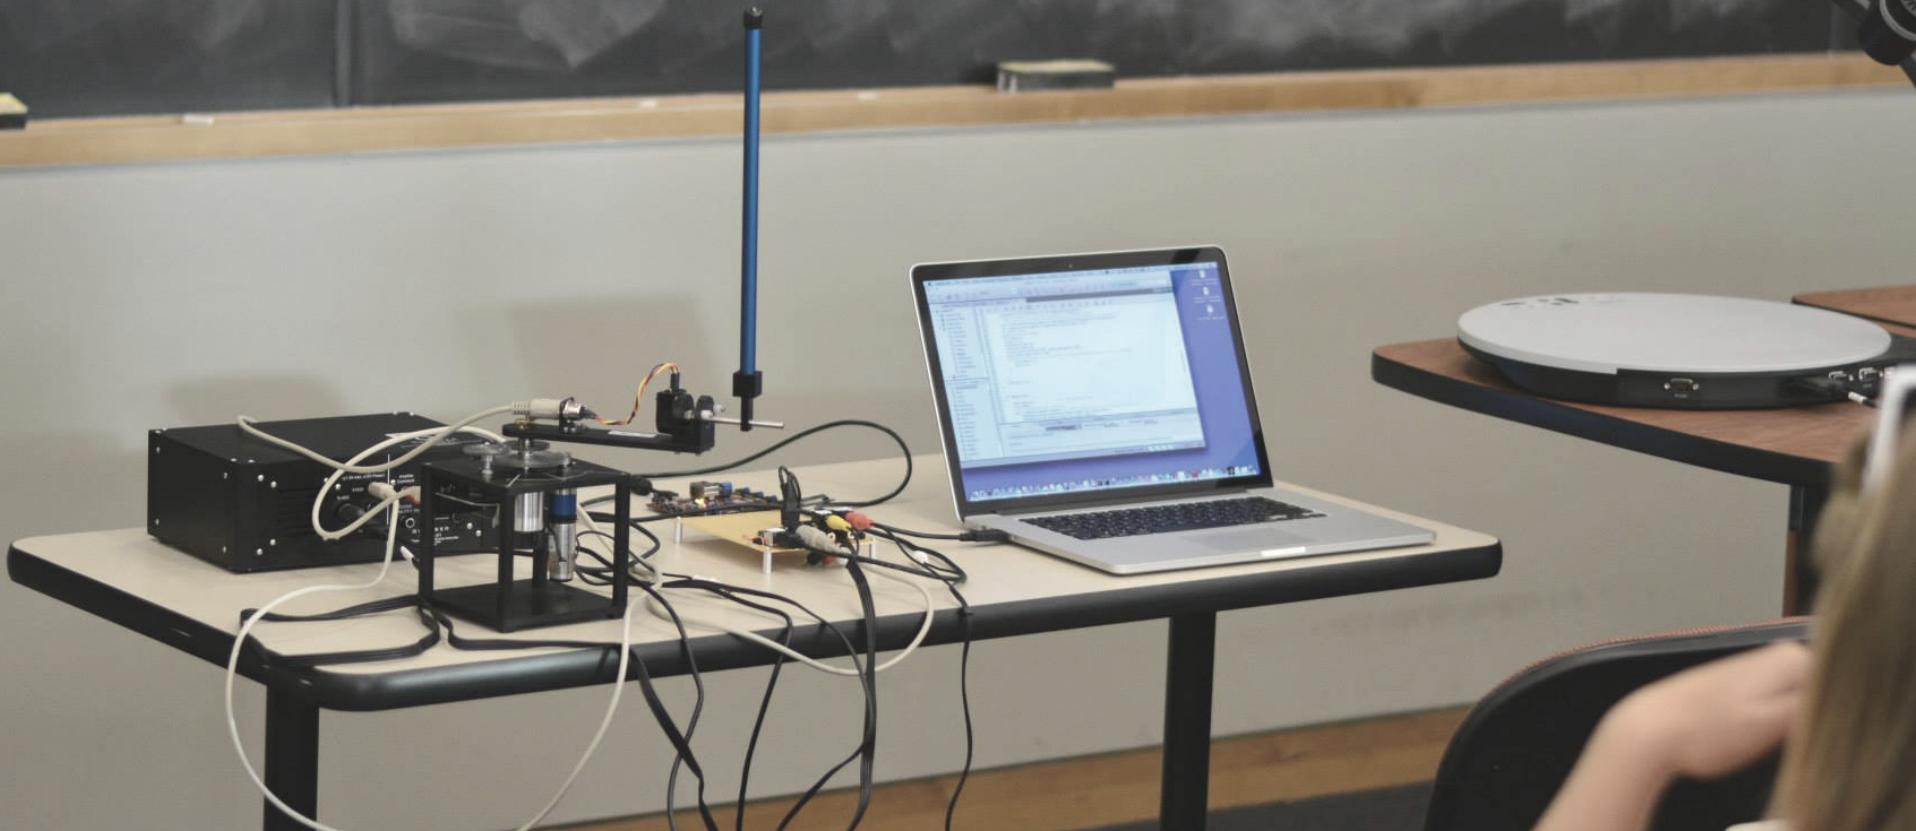

Virginia Tech's Women In Engineering program is comprised of a series of events focused around promoting female engineers in the workforce. Dinner receptions and networking events are held once per semester.

Virginia tech IEEE invites guest speakers, varying from women educated in the fields of gender studies to industry professionals, to share their invaluable experiences with the audience.

Virginia Tech IEEE aims to promote women in electrical and electronics fields while advocating IEEE leadership roles and advancing careers.

WORKSHOPS

We hold many technical workshops throughout the semester allowing our members to gain hands-on experience and help further their knowledge of different fields within engineering. The workshops are designed to be engaging and allow members of all knowledge levels to participate.

A photograph of a university campus at sunset. The scene includes a stone wall, a lamp post, and a building in the background. The sky is filled with colorful clouds.

HOW CAN YOU MAKE A DIFFERENCE?

Become a Partner.

Every dollar helps and can truly make a difference in advancing our organization and the activities that we host. We appreciate donations of all amount and hope that you take the time to look over our sponsorship tiers and the benefits associated with each level.

SPONSORSHIP TIERS

PLATINUM LEVEL

\$2,500 +

- Access to Platinum Level Spring Conference
- Waived Fee to Spring IEEE Career Event
- Covers costs of 2 catered recruitment events
- Distribution of job openings to members
- Resume Book
- Recognition on website

GOLD LEVEL

\$1,500 - \$2,499

- Waived Fee to Spring IEEE Career Event
- Covers costs of 1 catered recruitment events
- Distribution of job openings to members
- Resume Book
- Recognition on website

SILVER LEVEL

\$500 - \$1,499

- Covers costs of 1 catered recruitment events
- Recognition on website

Join us in our mission!

THANK YOU
